

SKIN ANALYZER

A-ONE SMART

A-ONE *Smart*

The masterpiece of skin analyzer

AI-based Facial Recognition Technology

High-resolution camera and Multi-sensor analyze 8 metrics

A-ONE *Smart*

Patented technology based on AI (Artificial Intelligence)!
Automatic skin analyzer for **full face** with **one click**

Product Features

- High-resolution camera + Multi-sensor
- Normal light / UV light / Polarized light
- Skin type measurement
- 5 minutes operation

Main Function

- Prediction of skin condition change
- Comparison of before and after treatment
- Customer management
- Product registration and recommendation
- Printable analysis result
